PREMIUM WATER PRODUCTS

PARADISE PAD

JUST OVER A DECADE AGO, Paradise Pad was established as a father-son business, based in Iowa. Recognized as America's Premium Waterpad since 2016, Paradise has continued offering industry leading products with customization and co-branding available. Hundreds of the finest boat dealers, marinas, and specialty retail stores have increased accessories sales, as well as enhanced thousands of family's time on the water by offering *Paradise Pads*.

PREMIUM PERFORMANCE

Key features designed for boaters like you. Tested with the perfect blend of comfort, function, size, weight, & storage. Paradise Pad provides the best in class water pads. Using the highest grade materials available, we stand behind (and on) our products.

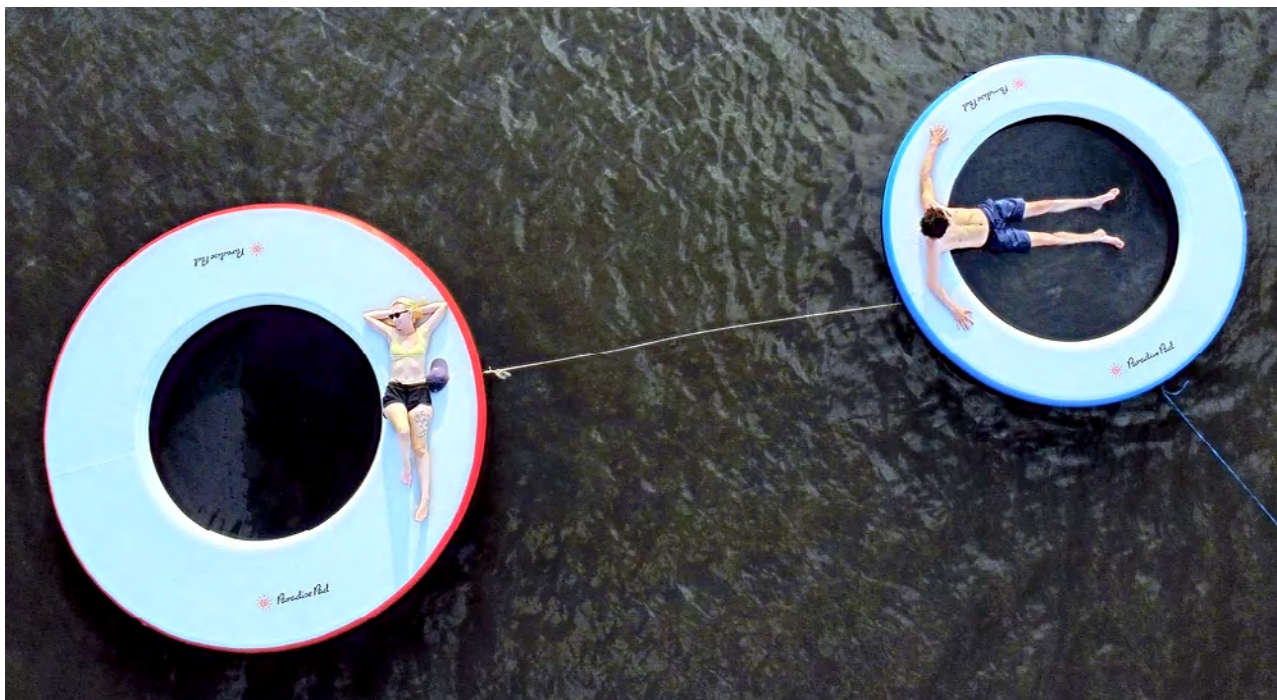

2019 WORLD RECORD FOR MOST PEOPLE RIDING A STAND-UP PADDLEBOARD, WITH 73 RIDERS, FEATURING OUR 50' PADDELBOARD

Achieved by Lakewood Sail & Paddle Club, Steve Bertken, and Mike Hayden, CEO Paradise Pad (all USA) in Lee's Summit, Missouri, USA, on 20 July 2019.

AMERICA'S PREMIUM FOAM WATERPADS

4

Our business philosophy is simple — offer premium water sports products to enhance our customers time on the water. We will continue with this simple idea for all new products. Every *Paradise Pad* is made with the highest quality materials, with more features and benefits than other brands in the market. Over the past decade, we've sourced the globe to find the best factories and materials.

Since our introduction, we have added multiple world-class quality products to our selection — including inflatable SUP's, inflatable water pads, and

yoga mats. We will continue to be adding to our premium lineup of products each year.

While Paradise Pad's primary goal is to provide top-tier products to people who love being out on the water, we also give back to the community annually, with a part of our proceeds donated to various charities, including Folds of Honor, Fin & Feather, and many other local charities here in Iowa.

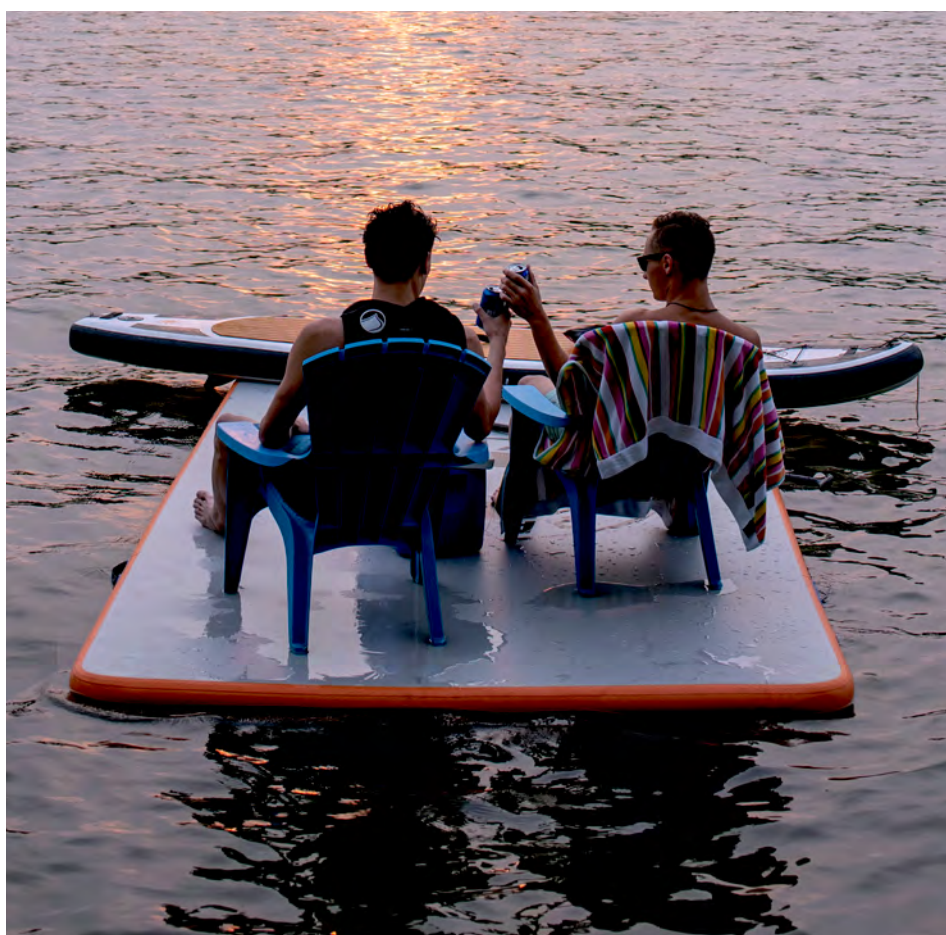

MARINE GRADE DROP STITCH INFLATABLE TECHNOLOGY

Not all inflatables are created equal...

Each pad is made from military-grade drop stitch technology for extreme stiffness and unbelievable rigidity. We can also customize any pad with your logo and choice of color.

Originally crafted as an upgraded flotation party pad, there are few, if any, better ways to spruce up a boatload of family and friends, than with a ParadisePad. Inflatables are more buoyant than foam water pads and much easier to store.
